Next Steps

1. The return packet will be reviewed. The student will receive an email if additional documentation is needed. The email will outline what needs to be submitted in order to complete the packet.
2. Once the packet is complete, the University official will forward to a clinician at the Health Center for Student Care for review. The clinician may contact the student, should they need more information to complete their review.
3. Based on the review, a recommendation will be made to the Dean of the student’s school or Program Director and the Assistant Dean of Students – Division of Student Affairs.
4. The Assistant Dean of Students – Division of Student Affairs will notify the student of the recommendation, will request that the medical hold be lifted, and the student will be allowed to register for classes or will otherwise be instructed of next steps.
5. The decision to readmit a student following medical leave is a provisional judgment that may be reversed within the first semester if the recommendations for readmission are not met. When permission to return is granted, special conditions or requirements may be outlined at that time.
